

# Herausforderung in Kombination von Programmieren und Mathematik/Statistik (8-16 Stunden Pro Woche)

## **Background**

I work currently on a number consulting projects where I need a student to help me with in writing c# code. Most of my programs are in Excel VBA, but I need to build GUIs and applications that run on .NET environment.

## **Requirements**

C# programming experience, understanding of statistical terms, being able to implement matrix calculations, Excel and VBA knowledge

## **Wenn**

as soon as possible from May 2014 onwards

## **Payment**

Negotiable

## **Language**

Preferably english obwohl ich gut Deutsch kann

## **Contact**
